DESIGNING FAMILY HOLIDAYS THAT MEET THE NEEDS OF EVERYONE IS AN ART

WE OFFER THREE WAYS TO TRAVEL WITH COSTA RICA FAMILY HOLIDAYS

1. CLASSIC

Choose one of our day-by-day itineraries designed for specific ages and abilities.

- First Encounter
- Treasure Hunt
- Costa Rica Adventure
- Multi-Generational
- Accessible

2. PERSONALIZED

Select a Classic itinerary and then modify it to meet your family's particular needs and interests.

3. CUSTOM

Ask our local experts to craft a unique vacation just for your family with an emphasis on saving you time and money.

All our itineraries have been perfected through years of experience and local knowledge.

FIRST ENCOUNTER

Our purposeful itineraries for young families include age-appropriate activities, community impact opportunities and free laundry service.

Just imagine returning home with clean clothes!

Parents want to instill the love of travel in their children at a young age. But sometimes, traveling with little ones can be challenging. That's why we carefully select appropriate journeys for families with babies, toddlers and preschoolers. We understand the importance of strollers paths, shorter drive times, frequent stops for impromptu play plus the necessity of naptimes. We provide baby bottles, in-room refrigerators, microwaves, cribs and car seats.

Our First Encounter package is available for families with children, ages 0 to 4 years old.

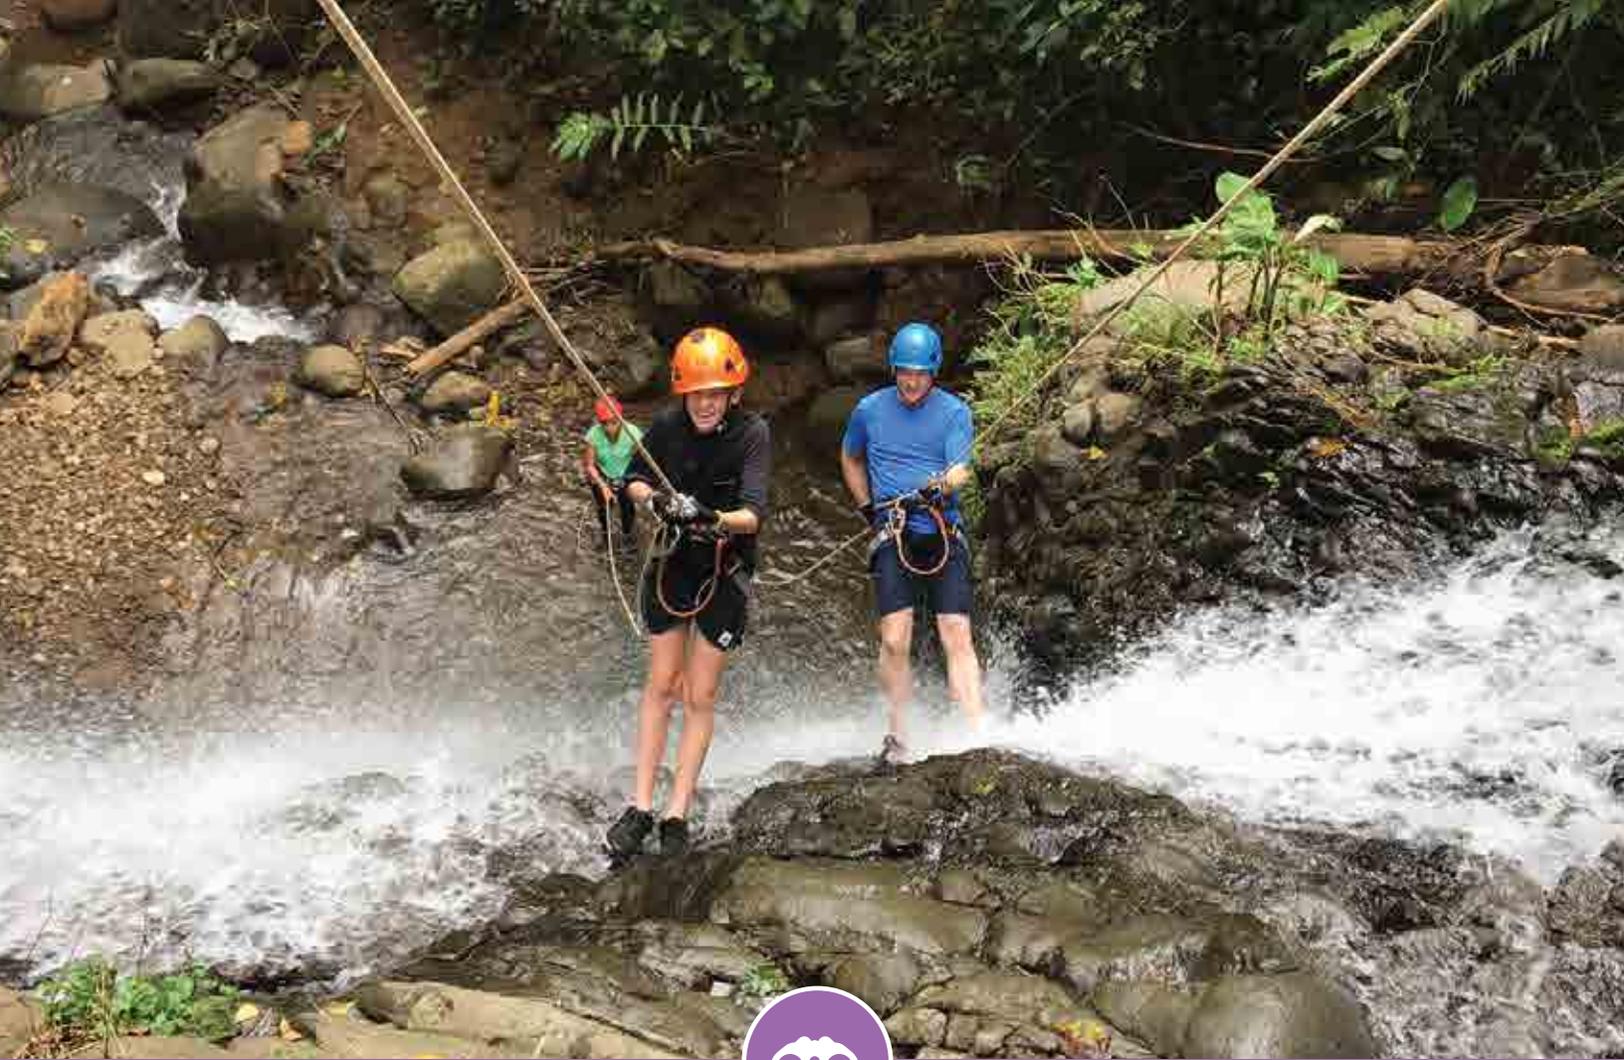

TREASURE HUNT

Our worry-free, thoughtfully-designed itineraries for families with school-age children incorporate learning about Costa Rica's people, wildlife and ecosystem in fun and playful ways. Discoveries are made around every corner.

As your children grow, so does their curiosity. They're full of questions and boundless energy. For these inquisitive minds, we recommend our Treasure Hunt journey. Your captain-guide will lead your young pirates on a kind of scavenger hunt, where interactive learning and unhurried family time are the real treasures. Mom and Dad, no need to steer the ship. Just sit back and enjoy the journey.

Our Treasure Hunt package is appropriate for families with children, ages 5 to 11 years old.

COSTA RICA ADVENTURE

We give teenagers a reason to put down their electronics. Through our adventure activities, intrepid families can interact with Costa Rica's natural world in new and exciting ways while testing themselves in a safe environment.

We know that teenagers want more - more excitement, more challenges, more adventures. Fortunately, Costa Rica delivers on all accounts. We know just how to satisfy your teen's need to test the limits while still ensuring his or her safety. The best part? You experience all these memorable, adrenaline-pumping adventures together.

Our Adventure package is appropriate for families with children, ages 12 to 17 years old.

MULTI GENERATIONAL

The best family vacations are those that can be shared by the entire family, regardless of age. We make it possible for everyone to experience the wonders of Costa Rica together.

Family vacations are not only about the destination, but they're also about the people who are with you when you discover that destination's riches. We value multi-generational travel that includes your extended family. So invite Grandma and Grandpa to join you! We're experienced in creating combined itineraries that meet the needs of everyone from babies to grandparents. We guarantee that there'll be something for everyone.

Our Multi-Generational package is appropriate for families of any age.

ACCESSIBLE

We're in the business of dream fulfillment! We can customize any trip to meet your specific needs, interests and budget. We have a deep desire to make Costa Rica accessible for all.

No one has more experience catering accessible journeys throughout Costa Rica than us. We craft itineraries based on your family member's specific permanent or temporary disability. Our goal is to create experiences that every family member on the trip - regardless of ability - will enjoy.

For your comfort, we have the following equipment available: transportation with lifts and anchors, amphibian chairs, joelettes, bathroom chairs, shower chairs, room lifts, walkers and manual wheelchairs.

TRIP RESERVATIONS, DETAILS AND POLICIES

Classic Trip

Classic itineraries can be purchased directly on our website. All trip reservation details and policies are available online. We make every attempt to operate confirmed trips. COSTA RICA FOR ALL

At IL VIAGGIO TRAVEL, we believe that Costa Rica should be enjoyed equally by all visitors. For every trip that we book, we finance inclusion and accessibility projects throughout Costa Rica.

In our goal of promoting human rights, we've created a non-profit association called Red Costarricense de Turismo Accesible (Costa Rica Tourism Accessible Network).

This non-profit network has three main pillars:

- 1. INFORM** by creating an accessibility directory to advise locals and foreigners about the accessible services available in Costa Rica
- 2. VERIFY** the services so we can guarantee accurate information
- 3. EDUCATE** the tourism sector so that we not only have the infrastructure but also the human factor

We strive to introduce all people with disabilities to the natural beauty of Costa Rica through accurate information and high-quality service.

Our work is based on the U.N. Sustainable Development Goals and the Global Code of Ethics.

DONATAPA

WE WORK 12 OF THE 17 OBJECTIVES OF SUSTAINABLE DEVELOPMENT

Working in the tourism industry, we realized that there was a big issue: no access to the beaches in Costa Rica for people with disabilities. So we created a social and environmental project called **DONATAPA**.

Sponsored by the Costa Rican Accessible Tourism Network, it works to create accessible and retractable walkways from recycled plastics. From these walkways, wheelchairs can access the ocean. The recycled plastics also are manufactured into other innovative products such as amphibian chairs, beach chairs, and garbage bins, thereby reducing the negative impact of plastic waste on the environment.

How you can help?

Support our cause and donate to the program. On our website, you'll see opportunities for sponsorships. Or have an idea to promote accessibility? Let us know.

look at the conditions needed to produce a gourmet coffee. We visit our roasting plant to discover the perfect bean to roast. In our theater we will enjoy a professional coffee-cupping and a trip to the country's best coffee-producing regions. Don't miss it!

PACK LIGHTLY

There's no need to pack a month's worth of clothes and supplies if you're going away for a week or two. Extra luggage weight increases fuel consumption for air and land transportation.

For me, adaptive surfing is a life changing experience. Doing sport in nature is a way to enjoy life to the fullest and share with amazing people from all over the world the same stoke. Adaptive surfing is my motto to get up from any kind of issue in my life and I like to share this love for the sport with other people with or without disabilities.

Jacó,
Garabito, Puntarenas

Surf Adaptado is a non profit organization that is passionate about sharing the stoke of surfing with everyone, regardless their abilities. We work on three areas: competitive, recreational and therapeutic surf. By all of them we empower people with and without disabilities to become the best version of themselves.

At IL VIAGGIO TRAVEL we invite our guests to this unique opportunity of a Surf Lesson with the Adaptive Surf National

Team. This is our way of supporting the team, its people, accessible sports, and activities. At IL VIAGGIO TRAVEL we believe the Ocean and its healing properties should be available for all!!

"Surfing is the most inclusive sport, in the ocean, we are all the same, it's the same waves, the same conditions, we just adapt the way we do it". Henry Martínez, blind surfer.

WATER DRINKING WITHOUT LITTERING

Reduce water bottle usage when you can. Invest in a refillable, collapsible water bottle instead of buying plastic bottles daily. A good filter system or purification tablets not only reduce the amount of plastic waste but will save on the cost of expensive mineral water.
